

SYED SAJID ALI

Senior MERN Stack Developer • Next.js · TypeScript · Node.js · MongoDB · Azure

Doha, Qatar • Valid Transferable QID • Open to UAE Relocation (Immediate)

+974 7721 2673 • ssajidali.dev@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Senior MERN Stack Developer with 12+ years of experience delivering secure, scalable applications end-to-end — from React and Next.js UIs to Node.js APIs, Microsoft Azure deployment, and GitHub Actions CI/CD. Deep expertise across the complete MERN stack (MongoDB, Express.js, React, Node.js) with production experience in TypeScript, Redux Toolkit, and secure-coding practices (JWT, OAuth, RBAC, bcrypt). Recently shipped a production LLM-powered application built on the Anthropic Claude API, covering system-prompt design, structured output handling, and resilient response parsing. Proven track record of measurable performance impact, technical leadership, and end-to-end product ownership across FinTech, LMS, HRMS, and eCommerce platforms. Currently based in Doha with a valid transferable QID; available immediately for opportunities across Qatar, UAE, and Saudi Arabia.

CAREER HIGHLIGHTS

- **End-to-end MERN ownership** — designed, built, and deployed a full-stack MERN application (Ledger Management System) with JWT authentication, RBAC, and a GitHub Actions CI/CD pipeline on Microsoft Azure Static Web Apps + App Service.
- **Production LLM integration** — built and shipped CV Match, a Next.js application powered by the Anthropic Claude API, covering system-prompt design, structured JSON outputs, and resilient response parsing.
- **Measurable performance impact** — improved Google PageSpeed scores from ~35 to 90+ and reduced page load times by 40–60% through frontend, image, and JavaScript optimisation.
- **Enterprise delivery at scale** — shipped 20+ production web applications across React.js, Next.js, WordPress, and Webflow stacks, serving FinTech, LMS, HRMS, and eCommerce clients.
- **Technical leadership** — led frontend architecture for LMS, HRMS, dashboards, and eCommerce platforms; mentored junior developers; drove code reviews across cross-functional teams.
- **9-year career progression** — advanced from Intern to Team / Project Lead at NybbleTech, managing junior developers and owning end-to-end client delivery.

CORE TECHNICAL SKILLS

Primary Stack	React.js, Next.js, TypeScript, Node.js, Express.js, MongoDB, Microsoft SQL Server Microsoft Azure
Also Proficient	Redux Toolkit, JavaScript (ES6+), Mongoose, RESTful API design, GitHub Actions CI/CD, Vercel, Tailwind CSS, Bootstrap
AI & LLM Integration	Anthropic Claude API, system-prompt design, structured JSON outputs, defensive response parsing
Security & Auth	JWT, bcrypt, Role-Based Access Control (RBAC), OAuth, secure coding practices
Performance & SEO	Lazy loading, code splitting, Core Web Vitals, PageSpeed optimisation, canonical URLs, cross-browser compatibility
UI & Design	Responsive & Mobile-First design, Radzen UI, GSAP animations, Figma-to-code
Methodologies	Agile / Scrum, code reviews, cross-functional collaboration, mentoring, knowledge transfer
Tools	VS Code, Vite, Postman, Figma, Git & GitHub, npm / pnpm
Also Familiar With	WordPress, WooCommerce, Webflow, Elementor — custom themes, plugins, API integrations

PROFESSIONAL EXPERIENCE

Fullstack Developer | KMNR Engineering

Mar 2025 – Jun 2026

Karachi, Pakistan

- ▶ Developed enterprise application features on the company's Microsoft stack — Blazor + Radzen frontend, C#/.NET, and Microsoft SQL Server backend — deployed on-premise via IIS on Windows Server.
- ▶ Built the Manager Reassignment module end-to-end, including T-SQL stored procedures for manager and employee dropdown data, the reassignment update flow, and integration with the Blazor UI.
- ▶ Wrote and maintained SQL Server stored procedures supporting the platform's HR data model, working with relational schema, data integrity, and audit requirements.
- ▶ Gained practical exposure to on-premise Windows Server deployment through the team's release cycle — RDP-based server access, IIS application pool management, and service coordination during releases in a controlled on-premise environment.

Senior Frontend Developer | BaritechSol

Oct 2021 – Dec 2024

Karachi, Pakistan

- ▶ **PageSpeed 35 → 90+** on a WordPress-based Learning Management System through frontend, image, and JavaScript optimisation — a 40–60% reduction in page load times.
- ▶ Resolved canonical URL and on-page SEO issues, significantly improving crawlability and organic search rankings.
- ▶ Led delivery of a Webflow-based product-submission portal with a rewards system, data charts, and role-based admin dashboards.
- ▶ Contributed HRMS frontend modules and delivered pixel-perfect, mobile-first interfaces from Figma designs.
- ▶ Coached junior developers, conducted code reviews, and coordinated frontend deliverables across cross-functional teams.

UI Developer → Team Lead | NybbleTech

Jun 2012 – Oct 2021

Karachi, Pakistan

- ▶ 9-year progression from Intern → HTML/CSS Developer → WordPress & eCommerce Developer → Team / Project Lead (2019–2021).
- ▶ Managed a team of junior developers, ran code reviews, and led end-to-end delivery of 20+ client web projects, including full technical documentation and handover.
- ▶ Built WooCommerce platforms with custom checkout flows, transactional email templates, and performance tuning.
- ▶ Delivered pixel-perfect, cross-browser compatible UI implementations from PSD and Figma designs.

SIGNATURE PROJECTS

CV Match — AI-Powered CV / Job Description Analyser (*Personal Project, 2026*)

Full-stack LLM application that analyses a candidate CV against a job description and returns a match score, matched and missing skills with severity, and actionable improvement suggestions — built end-to-end and shipped to production.

- ▶ **Stack:** Next.js (App Router) + TypeScript + Tailwind CSS, with server-side API routes
- ▶ **AI Layer:** Anthropic Claude API — system-prompt design with an explicit scoring rubric, structured JSON output, defensive response parsing, and schema normalisation to keep the UI resilient to model variance
- ▶ **DevOps:** Branch-per-feature workflow with pull requests, GitHub Actions checks, per-PR preview deployments, and continuous deployment to Vercel on merge

Live Demo: cvmatch.syedsajidali.dev **Repository:** github.com/Frontend-website-developer/cv-match

Ledger Management System — Full-Stack MERN Application on Azure (*Personal Project, 2026*)

Full-stack accounting and client-ledger application built from scratch, with separate admin and client roles for managing expenses, payments, and balance reconciliation — end-to-end ownership from architecture to production.

- ▶ **Frontend:** React.js + TypeScript + Vite + Redux Toolkit + Tailwind CSS + React Router
- ▶ **Backend:** Node.js + Express.js + MongoDB + Mongoose
- ▶ **Authentication:** JWT-based auth with separate admin and client middleware, bcrypt password hashing, role-based route protection, and password-reset token flow
- ▶ **DevOps:** GitHub Actions CI/CD pipeline — automated build and deployment to Azure Static Web Apps (frontend), Azure App Service (backend), and MongoDB Atlas (database)

Live Demo: ledger.syedsajidali.dev **Repository:** github.com/Frontend-website-developer/Ledger

ADDITIONAL SELECTED PROJECTS

- ▶ **KMNR Engineering Portal** — React.js + Redux dashboard with JWT authentication, REST API integration, and Figma-designed UI.
- ▶ **BaritechSol Product Portal** — Webflow-based portal with product submissions, rewards, data charts, and role-based access dashboards.
- ▶ **Interior Innovations eCommerce** — fully responsive eCommerce platform with mobile-first product listings and cart flows.

INDUSTRY EXPOSURE

FinTech • eCommerce & Retail • Learning Management Systems (LMS) • HR Management Systems (HRMS) • Healthcare • Corporate & Engineering • IT Services

EDUCATION

Bachelor of Science in Computer Science

2012

Sir Syed University of Engineering & Technology — Karachi, Pakistan

PERSONAL DETAILS

Nationality	Pakistani
Current Location	Doha, Qatar
QID Status	Valid & Transferable
Availability	Immediate — open to Qatar, UAE, and Saudi Arabia
Notice Period	None — available to join within 2–3 weeks of offer
Languages	English (Professional) • Urdu (Native) • Hindi (Conversational)
